MANAGEMENT DISCUSSION OF FUND PERFORMANCE

THE FUND

The Ravensource Fund ("Ravensource" or "Fund") is a closed-end investment trust, the units of which trade on the TSX under the symbol RAV.UN. By way of a special meeting of unitholders, Stornoway Portfolio Management Inc. ("Stornoway" or "Investment Manager") was appointed the Investment Manager to the Ravensource Fund effective July 1, 2008. Stornoway's responsibilities for Ravensource include the evaluation, selection and negotiation of investments, the ongoing monitoring and evaluation of such investments and the recommendation of the appropriate timing and structure for disposition of such investments.

INVESTMENT OBJECTIVE AND STRATEGIES

The principal objective of Ravensource is to achieve absolute long-term returns, with an emphasis on capital gains, through investments in selected North American debt instruments, creditor claims and equity securities. The investment objectives of the Fund are stated in the Declaration of Trust and in on the Fund's website at www.ravensource.ca.

To achieve its investment objectives, Ravensource's investments fall primarily in three strategies:

1. *High Yielding Securities*: investing in corporate debt, income fund units, or other securities that produce a sustainable high level of income for the underlying credit risk.
2. *Distressed Securities*: investing in corporate debt, creditor claims and/or equity securities of companies that are in, or perceived to be in, financial distress at a price materially different from what we believe to be the underlying fundamental value of the securities.
3. *Special Situations Equities*: investing primarily in Canadian and U.S. small- and mid-cap equities that are attractively valued with catalysts to unlock value.

RISK

Risks associated with an investment in the units of Ravensource are discussed in the Annual Information Form and in the notes attached to the financial statements, which are available on the SEDAR website at www.sedar.com and on the Ravensource website at www.ravensource.ca. There has been no change in the Fund's stated investment strategy or other changes that would materially affect the risk of investing in Ravensource over the course of 2016. The Fund continues to be suitable for those investors seeking long-term capital growth, have a long-term investment horizon, and possess a medium to high-risk tolerance to withstand the ups and downs that go along with investing in out-of-favor securities.

LEVERAGE

The Fund's total indebtedness cannot exceed 30% of the total assets of the Fund. Unsettled securities transactions are not considered borrowings for purposes of the limitation on the use of indebtedness calculations. Over the first half of 2016, Ravensource did not employ leverage.

RESULTS OF OPERATIONS FROM JANUARY 1, 2016 TO JUNE 30, 2016

Ravensource's net assets increased by \$1.0 million or 4.4% over the first half of 2016 as a result of a \$1.3 million net operating gain - comprised of realized and unrealized gains and losses, interest payments, and dividends on its investment portfolio less fund expenses - partially offset by \$0.3 million of distributions to unitholders. In comparison, Ravensource's net assets increased by \$1.9 million or 9.2% after paying \$0.3 million in distributions over the first half of 2015.

Investment Performance

Ravensource's net asset value per unit ("NAV") increased by \$0.75 or 5.5% including distributions, after all fees, and expenses over the first half of 2016 due to strong performance in its investment portfolio. Over the period, Ravensource underperformed the S&P TSX Composite Total Return Index (+ 9.8%), the S&P/TSX Small Cap Total Return Index (+ 28%), and the B of A ML High Yield Master II Index (+ 9.3%) while outperforming the Credit Suisse Distressed Index (0%). All index and fund returns are calculated on a total return basis.

The largest contributor of the increase in NAV over the first half of 2016 was the Fund's investment in the senior notes of Crystallex International. The increase in the market value of Crystallex's senior notes was a result of the announcement on April 4th, 2016 that the World Bank's International Centre for Settlement of Investment Disputes ("ICSID") had awarded Crystallex damages of US\$1.386 billion (the "ICSID Award") due to Venezuela's inappropriate expropriation of Crystallex's Las Cristinas property without proper – rather any – compensation. The ICSID award represents a significant milestone that materially increases the investment merits of Crystallex's senior notes and the market reacted in kind.

This period's increase in NAV was also attributable to the Fund's holdings in the common shares of NAPEC Inc and Quad Graphics and preferred shares of Dundee Corp. Detracting from the Fund's 2016 performance was its investments in the common shares of Northern Frontier Corp, Ten Peaks Coffee, and Delavaco Residential Properties Corp.

Over the longer term, the Net Asset Value of Ravensource units has increased by 107.5% in aggregate / 9.6% compounded annually, including re-invested distributions, since Stornoway took over its management in July 2008. Over the same period, Ravensource has significantly outperformed the S&P TSX Composite Total Return Index (+ 23.6% / 2.7%), the S&P/TSX Small Cap Total Return Index (+ 14.4% / 1.7 %), the B of A ML High Yield Master II Index (+ 87.4% / 8.2%), and the Credit Suisse Distressed Index (+ 29.6% / 3.3%).

Distributions

Ravensource Fund's distribution policy is to make semi-annual distributions to unitholders in an amount to ensure that it does not incur any tax liability and to provide a reasonable yield for investors. The Fund made a semi-annual distribution of \$0.15 per unit on June 30, 2016, consistent with the \$0.15 per unit distribution paid in June 2015.

Redemptions and Recirculation of Units Tendered for Redemption

Ravensource Fund provides for an annual redemption privilege that allows unitholders to redeem 100% of their units for cash at a price equal to the Net Asset Value – adjusted to reflect expenses incurred to affect the redemption – calculated as of the Annual Redemption Date. In the event that unitholders elect to redeem units under the annual redemption privilege, the Fund has the right to enter into a recirculation agreement with an investment dealer who will use commercially reasonable effort to find purchasers for the units tendered for redemption at the redemption price. For further details, please refer to the Declaration of Trust, which can be found in the "Key Documents" section of the Ravensource Website at www.ravensourcefund.ca and on the SEDAR website at www.sedar.com.

Liquidity

Starting fiscal 2016 with 27.4% of the Fund's net assets in net cash (net of all liabilities), the Fund's net cash position decreased to 22% as of June 30, 2016 due to investment purchases, distributions, and gains in the investment portfolio, partially offset by investment sales. While near historically high levels, the Investment Manager will remain patient and stick to our stringent investment criteria in deploying the Fund's cash.

Fees and Expenses

Ravensource's expenses consist of Investment Manager fees, Trustee & Transfer Agent fees and expenses, TSX listing fees, taxes (including but not limited to GST/HST), interest and borrowing costs, accounting and audit expenses, the Independent Review Committee ("IRC") expenses, legal and professional expenses.

The annualized Management Expense Ratio ("MER") measures the amount of annual fund expenses, excluding transaction costs, expressed as ratio to average net assets. To understand the way we report Ravensource's MER, we must first explain our methodology. Incentive Fees are different from other fund expenses as the amount incurred is a function of the Fund's annual investment performance over and above the 5% hurdle rate along with meeting other conditions. If the annual return during the year is less than 5% after all other fees and expenses, the Incentive Fee will be zero and the burden to make up for the year's under-performance will be carried into the future before the investment manager receives an Incentive Fee. In contrast, accountants, auditors, lawyers and other sources of fee expenses will demand full payment regardless of whether the Fund performs well or not. As such, we believe the appropriate way to incorporate the Incentive Fee is to report the MER on both a pre and post incentive fee basis and not to annualize the Incentive Fee for interim periods.

Incorporating the Fund's direct expenses but excluding the incentive fee, Ravensource's MER for the first 6 months of 2016 was 1.22% (first 6 months of 2015 - 1.28%).

Management and Administrative Fees remained low at 0.61% of average net assets (first 6 months of 2015 - 0.68%) as a result of the Investment Manager's policy of passing along the economic benefit of fees received from investees to the Fund. In the first half of 2016, this policy resulted in a reduction in the MER of 0.58% (first 6 months of 2015 – 0.49%). For further information, see "Related Party Transactions" below.

The Incentive Fee accrued over the 6 months ended June 30, 2016 amounted to \$184,068 / 0.81% of average net assets, versus an incentive fee of \$49,445 or 0.23% for the comparable period in 2015.

Factoring in the impact of the incentive fee, Ravensource's MER for the first half of 2016 was 2.03% (first 6 months of 2015 – 1.51%). The 52 basis point increase in the MER was a result of the 58 basis point increase in the incentive fee, offset by a 6 basis point decrease in other expenses.

RECENT DEVELOPMENTS

On June 30th, 2016, Ravensource together with the Stornoway Recovery Fund LP, Bridgecorp Canada Inc., Logan Peak Capital Inc. and Klass Capital Corporation entered into a definitive transaction agreement to acquire GuestLogix Inc. (the "Transaction").

As background to the Transaction, GuestLogix is the largest onboard retail technology provider to the travel industry by number of customers and total global passenger trips served by its retail solution. On February 9th, 2016, GuestLogix obtained court protection under the Companies' Creditors Arrangement Act (the "CCAA") with the goal to restructure and reorganize its assets, business and financial affairs.

Stornoway, on behalf of Ravensource and Stornoway Recovery Fund LP, together with other investors, entered into discussions with GuestLogix prior to and following its filing for CCAA to explore various alternatives to stabilize and revitalize the company. The Transaction resulted from the court-approved sale and investment solicitation process conducted under the supervision of PricewaterhouseCoopers Inc., the court appointed monitor, and the direction of the Board of Directors of the Company.

The Transaction was approved on July 13th, 2016 by the Ontario Superior Court of Justice (the "Court") and will be implemented through the acquisition of the shares of GuestLogix in connection with a CCAA plan of compromise and arrangement. Closing of the Transaction is scheduled to occur on or before September 30, 2016 following the receipt of required approvals and the satisfaction of closing conditions.

Following the Transaction, GuestLogix will refocus exclusively on the onboard retail experience by way of its next generation onboard retail platform and mobile-based solutions that are currently in use by several of the world's leading airlines.

RELATED PARTY TRANSACTIONS

SFG Services Agreement

The Fund has an investment in the securities of Specialty Foods Group Inc. ("SFG"). Additionally, another fund managed by the Investment Manager holds investments in SFG securities. In 2012 the Investment Manager entered into a services agreement with SFG (the "SFG Services Agreement") whereby the Investment Manager is to provide strategic advice and analysis to SFG and in return will earn a fee for these services. As per its internal policy and approved by the Fund's IRC, the Investment Manager reduced the Management Fee and Administrative Fee that it charges to the Fund in order to pass along the economic benefit of the fees earned by the Investment Manager from the SFG Services Agreement in an amount proportionate to the Fund's relative investment in SFG securities. During the 6 months ended June 30, 2016, the Investment Manager reduced its Management Fee by \$37,856 (June 30, 2015 - \$30,511) and its Administrative Fee by \$20,384 (June 30, 2015 - \$16,429). In addition, as both the Management Fee and Administrative Fee are subject to HST, lowering these fees also reduces HST. Therefore, factoring in the HST savings, the total impact of the fee reductions amounted to \$65,811 inclusive of HST (June 30, 2015 - \$53,042), as noted in the financial statements. The Investment Manager will continue to reduce its Management Fee and Administrative Fee accordingly for so long as Ravensource is invested in SFG securities and the Investment Manager continues to receive fees under the SFG Services Agreement.

Investment Manager Compensation

The Investment Manager receives compensation for performing various responsibilities and services for Ravensource. The total compensation accrues from various components: Management Fee, Administration Fee, Investor Relations Fee and the accrued Incentive Fee. The aggregate fees incurred over the 6 months

ended June 30, 2016 amounted to \$253,747, including HST (June 30, 2015 - \$122,968). In addition, the Investment Manager earned \$65,811 for services performed under the SFG Services Agreement (June 30, 2015 - \$53,042). The breakdown of the fees is as follows:

i. Management Fee

The Management Fee is based on the Fund's average weekly net assets and payable on the last business day of each calendar month as follows:

Average weekly net assets	Management Fee
Up to and including \$250 million	0.65% of net asset value plus HST
Between \$250 million and \$500 million	0.60% of net asset value plus HST
\$500 million and more	0.55% of net asset value plus HST

The net Management Fee for the 6 months ended June 30, 2016 after reductions described below amounted to \$40,909 inclusive of HST (June 30, 2015 - \$43,289). The Investment Manager reduced the Management Fee by \$37,856 (June 30, 2015 - \$30,511) due to the aforementioned SFG Services Agreement. In the absence of this reduction, the Management Fee for the period would have amounted to approximately \$83,686 inclusive of HST (June 30, 2015 - \$77,766).

ii. Administrative Fee

Subject to the supervision of the Trustee, the Investment Manager has agreed to be responsible for and provide certain administrative services to the Fund. The Administrative Fee is based on the Fund's average weekly net assets and payable on the last business day of each calendar month as follows:

Average weekly net assets	Administrative Fee
Up to and including \$250 million	0.35% of net asset value plus HST
Between \$250 million and \$500 million	0.30% of net asset value plus HST
\$500 million and more	0.25% of net asset value plus HST

The net Administrative Fee for the 6 months ended June 30, 2016 after reductions described below amounted to \$22,027 inclusive of HST (June 30, 2015 - \$23,511). The Investment Manager reduced the Administrative Fee by \$20,384 (June 30, 2015 - \$16,429) due to the aforementioned SFG Services Agreement. In the absence of this reduction, total Administrative Fee for the period would have amounted to approximately \$45,061 inclusive of HST (June 30, 2015 - \$42,075).

iii. Investor Relations Fee

The Investment Manager is paid a monthly Investor Relations Fee of \$1,000 plus applicable sales tax for unitholder reporting and other services provided under a service agreement. The aggregate Investor Relations Fee for the 6 months ended June 30, 2016 amounted to \$6,743 inclusive of HST (2015 - \$6,724).

iv. Incentive Fee

The Investment Manager will earn an incentive fee equal to 20% of the amount by which the net asset value per unit at the end of the year, adjusted for contributions, distributions, and redemptions during the year, exceeds the net asset value per unit at the beginning of the year by more than 5%, plus any shortfalls from prior years. The accrued Incentive Fee for the 6 months ended June 30, 2016 amounted to \$184,068 inclusive of HST (June 30, 2015 - \$49,445).

- (1) This information is provided as at December 31 of each year, except YTD 2016 which is as of June 30, 2016.
- (2) Management expense ratio is based on total expenses (excluding commissions and transaction costs) for the stated period and is expressed as an annualized percentage of monthly average net asset value.
- (3) The Investment Manager reduced Management Fees and Administrative Fees in order to pass the economic benefit of fees earned in connection with the SFG Services Agreement to unitholders. This figure represents what the MER would have been in the absence of these fee reductions.
- (4) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (5) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in the portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the fund.
- (6) The Closing market price refers to the last bid for a given period end.

PAST PERFORMANCE

The following performance information assumes that all distributions made by the Fund are used to purchase additional units of the Fund and is based on the net asset value of the Fund, after all fees and expenses have been taken into account.
